Hi Molly,

I was just reminded that I had these. They may assist in your review of monument. Let me know if you have any questions. Also, the question was asked if anyone needs hard copies. Let me know if you do and I'll get some sent over to you. Thanks.

Hello Stephanie,

Michele and I have updated the official DEIS RTC matrix to reflect the latest edits to the document for air quality (minus the ARMs language), cactus, the ACEC, and floodplains/riparian habitats. Would you like to review them to ensure that we haven't missed anything?

We're also updating the post-DEIS documents summarizing EPA and FWS's respective comments on the above-described resources. While these won't be included in the FEIS it's our understanding that you may share these additional comment responses with the EPA and FWS.

Thank you, Dawn
